

Toyota Sprint Series - Round 6 - Snetterton 100 21/10/17

2017 Championship Report

The final round of the 2017 Toyota Sprint Series was held at the popular Snetterton circuit, using the versatile '100' layout with an almost double lap.

Now in its 10th year, there were some well known competitors returning for the championship and a good intake of newcomers. As expected, there was a wide variety of cars, from the modern and sporty GT86 to more classic Celica's, MR2s and more unusual variants such as the Levin. There is a class for every type of Toyota within the series to enhance competition.

Being the final round, it was all about championship positions with a lot of the results depending on the drivers' performance in this event.

The Snetterton round runs the exact same layout so giving the competitors a "benchmark" to compare previous times and see if they can improve on previous years.

Thank you to our 2017 Sponsors

Class N1 Street

A well subscribed class for lightly modified GT86 cars, there has been an emerging three way battle throughout the season. Tomas Verner managed to secure the win today with a 1.45.36, being chased hard by Kevin Atkins and a 1.46.57.

Class N1 Pro

A class for more modified GT86 cars, only one entrant for this round, but Stuart Tormey improved throughout the day with a final time of 1.55.21

Class N2 Standard

A class for completely stock GT86 cars, Alex Jaskowski was the sole entrant, but loved the way the car drove on track and completed the day with a final time of 1.49.86

Class J Street

This class for up to 1000cc Normally Aspirated and unmodified cars has been a lonely year for Norman Webster but he has still had fun and shown that you can turn up and drive whatever you may have and still enjoy the event. The Yaris held out well and finished with a best time of 2.14.63

Class J Pro

Modified cars up to 1000cc Normally Aspirated fit into this class, and Steve Arnold drove his stripped out Aygo very well, as he has been doing all year. He finished with a time of 2.02.15

Class E Street

This is a class for standard cars up to 1350cc Normally Aspirated. James Clayton is on his own in this class but his Starlet gave him no issues and he finished with a time of 1.59.16

Class E Pro

For more modified cars with low power, there have been regular entrants into this class and the championship lead has changed over the events. Guy Bentley was the victor today – the Starlet being a good car for the small 100 circuit, and a time of 1.54.84 closely chased as always by the Starlet of Jay Smith and a time of 1.55.01

Class D Street

A popular class for engines up to 1600 Normally Aspirated, series regular Jaik Dean took top spot with a 1.57.06 in the Yaris T Sport, Patrick Murphy in second place with a 1.58.17 in his Yaris.

Class D Pro

For more modified cars up to 1600cc Normally Aspirated, today this class was dominated by Yaris T-Sports. Jay Wood took first place with a great time of 1.53.98, runner up was Sally-Anne Elliott with a 1.55.34

Class C Street

Cars over 1600cc Normally Aspirated populate this class ensuring close battles all season. Gary Cooper took the win for this round with a 1.47.44 in the Celica, whilst Richard McKay was close behind with his Celica and a time of 1.48.44

Class B Pro

Finally with a competitor in this class, Phil Cutler's MR2 was still plagued with engine gremlins, this time in the coolant system. He still managed the win with a cracking 1.41.64, but chased by newcomer Ashley Harvey in the Starlet with a respectable 1.44.43 – despite a few seconds between these times, these drivers were 4th and 5th overall respectively.

Class A3 Street

This class for over 1600cc forced induction standard cars saw Dan Thompson storm the track all day in his MR2 for the class win, with his time of 1.44.49 also earning him the Hard Charger award for drivers who make an impact on the day. In this round, Dan was the highest place street class car, in 6th overall. Runner up was Andrew Haw producing a 1.46.27 in the Celta.

Class A3 Pro

Tom Thorpe and his Celica GT4 have been the ones to watch this year, often challenging for the overall podium. Tom had another great day, his time of 1.41.15 taking the class win and also third overall. Adam Webber drove his MR2 Turbo well and his time of 1.47.62 earned him second in class.

Class A2 – Pro

A regular and much loved competitor, Roger Greaves, moved class for this round so he could drive the Celica. It seemed a good decision as he drove well and produced a winning time of 1.48.72

Class A1 Street

Matt Hyland brought his Celica GT4 to this round, and drove well all day, being another high placed street car and Matt set a great time of 1.45.70

Class A1 Pro

Andrew McCormack intended to do the whole 2017 season with his Celica GT4 but the build process took longer than intended. We were pleased to see him at the final round, and the car was well behaved, showing us what might be in store next year. His time of 1.40.43 earned him second overall.

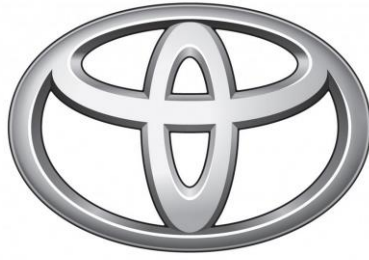

Pro-Tuner Class

The most seriously prepped cars are placed in the Pro-Tuner class, but due to series founder and regular Adrian Smith having a 'day off', Andy Bunney and the Celica were on their own today. Andy however still had to drive hard as the overall championship needed to be decided at this round. Fortunately, he had an excellent day setting fastest time overall and no one could catch his excellent time of 1.38.02

Summary & 2017 Championship Results

2017 has been another successful year which has seen 83 competitors compete at up to 6 different venues across the country. The results are collected from each round and competitors count their best 5 scores to determine the class and overall winners.

Our annual awards ceremony was well supported and took place at Huntingdon Race course.

Thank you to our 2017 Sponsors
